EDUCATION

PDA College of Engineering, Kalaburagi

July 2022 – July 2026

B.E., AIML | CGPA: 8.43

SC Gurukula PU College, Karadyal Bhalki

July 2019 – July 2021

PUC (Science) | Percentage: 73.17%

Morarji Desai Residential School, Bhalki

June 2016 – April 2019

SSLC | Percentage: 81.28%

EXPERIENCE

Software Developer Intern — GGS Information Services

Bengaluru | Sept 2026 – Present

- Working as a Software Developer Intern at GGS Information Services India Pvt. Ltd., contributing to software development tasks as part of a 3-month internship.
- Collaborating with the development team to build and support software solutions, gaining hands-on industry experience.

Python Full Stack Trainee — Dhee Coding Lab (BTM Branch)

Bengaluru | Jan 2026 – Aug 2026

- Pursued hands-on training in Python Full Stack Development, developing backend applications using Python and Django.
- Built responsive frontend interfaces with HTML, CSS, JavaScript, and React.
- Implemented RAG pipelines using text embeddings and vector databases for context-aware, domain-specific AI functionality.
- Explored the Model Context Protocol (MCP) for connecting LLM applications to external tools and data sources in a standardized way, strengthening understanding of scalable AI-agent architectures.

SKILLS

Programming Languages: Python, HTML5, CSS3

Libraries / Frameworks: JavaScript, Django, React

Tools / Platforms: VS Code, Git, GitHub, AWS

Databases: SQL

PROJECTS / OPEN-SOURCE

Lung Cancer Detection Using Image Processing (Team Project) — Python, CNN, Image Processing

- Collaborated in a team to build a CNN-based system for classifying lung CT scans as normal, benign, or malignant.
- Contributed by collecting the CT scan image dataset and performing feature extraction (nodule shape, size, texture, and border characteristics) for model input.
- Team's pipeline achieved 94.5% classification accuracy on clinical CT scans.

Course Management System — Role-Based Learning Platform — React, Vite, Tailwind CSS, JSON Server, Axios

- Developed a role-based course management web app during internship, with separate Admin and User access levels.
- Implemented Admin features to add, update, and delete courses in real time, and User features to browse courses, view details, add to cart, and enroll.
- Built a responsive, component-based UI using React, Vite, and Tailwind CSS, with Axios for API communication and JSON Server powering the data layer.
- Used React Context for centralized state management and React Router for protected, role-based routing.

Personal Portfolio Website — HTML, CSS, JavaScript

- Designed and built a responsive personal portfolio website from scratch to showcase projects, skills, and certifications.
- Implemented interactive UI elements including project sliders, scroll animations, and a fully responsive layout across devices.
- Deployed independently, reflecting end-to-end frontend development and UI/UX design skills.

CERTIFICATIONS

- Python Full Stack with Gen AI — Dhee Coding Lab (2026).
- Python with Data Science — Ethnotech Academy (2025).

HONORS & AWARDS

- Completed 100+ coding problems on LeetCode.
- Achieved 5-star Python Badge on HackerRank.
